HERBAL BITTERS  
 FANAGORIA

The bitter is a unique beverage – both in terms of its composition and production technique. The base of our bitter is Chinese date (jogoba) fruit. All the ingredients undergo strict control. The bitter is crafted as Fanagona's patented invention. It contains natural vitamin complexes and biologically active substances extracted from 26 medicinal herbs – medlar, St. John's wort, calendula, lime flowers, lemon balm, etc. Alc. – 40% by vol.

HERBAL LIQUEURS  
 RED GLADE

The bitter is made of the extracts of 33 curative herbs (medlar, St. John's wort, calendula, lime flowers, lemon balm, etc.) and Chinese date (jogoba) fruit. The bitter is peculiar for its complex flavour and bittern-spicy taste. It is an active tonic. The bitter is efficient against cold, it improves metabolism and immune processes.

# FANAGORIA

NOBLESSE OBLIGE

Russian winery Fanagoria is situated in the western part of Temruk area of Krasnodar region close to the Black Sea – in historical wine-making Taman region, where in the 6th century B.C. on one of the islands the Greeks founded the city in the honor of their leader – a brave warrior Fanagor. Still now there are conserved about dozen of antique wineries of about the II century B.C., one of which will be placed on the territory of our winery after reconstruction and can be seen with our visitors.

The second birth of Kuban winemaking takes place in the last third of the century XIX. From France there were brought the classic varieties of the grapes – Chardonnay, Sauvignon, Clairette. The system in development of the sector appeared after creating of Temruk committee of the grapes and winemaking. Temruk region took an important part in transforming of Kuban region into a grapes region of the Russian Empire – by the beginning of the 1st World War till 16 mln. Kilos of the grapes were cropped there annually. Alas, but till the middle of the last century nobody paid a due attention to the winemaking in Taman, that's why foundation of the winery (future Fanagoria) in the village Sennoi in 1957 became an important stage in rebirth of Kuban wines.

## The Chronicle of Fanagoria

**1957** – it's founded Sennoi winery – a historic antecedent of today's Fanagoria

**1959** – it's founded a wine-growing state farm "Fanagoriysky"

**1963** – it's finished the building of wine-and-juice plant, the biggest in the USSR and the 2nd in Europe by volume of production of grape juice.

**1978** – the state farm "Fanagoriysky" is united with Sennoy wine-and-juice plant.

**1980** – Fanagoria's juices became the official drink of the XXII Ind Summer Olympic games in Moscow.

**1996** – it's created a Public company Fanagoria Estate Winery. It's taken a strategic decision of priority production of grape wines, the result of which there became a technical renovation of the com-

pany and launching of 5 new bottling lines. It began a production of unique proprietary herbal liqueur "Fanagoria".

**1999** – annual volume of production surpassed 1 million decalitres (10 million liters).

**2001** – the production of wines of Numeric Reserve (NR) collection has started.

**2002** – the production of Russian sparkling wines started.

**2004** – it's opened a ceramic workshop, making the copies of antique amphoras for wines and herbal liqueur.

**2005** – at first in the history Fanagoria wines were exported to Japan.

**It launched the production of premium sparkling wine – brut.**

**2006-2008** there were planted 1230 Ha of new vines. It was made by Austrian technology with use of circulating of trenching ploughs, vine-planting machines and laser ray for planting layout.

**2006-2008** it takes place a large-scale reconstruction of the company. It is purchased a grape-harvesting machinery, processing equipment of «Bucher Vaslin» (France), it is renovated a tanks` sector. It is launched a cold process bottling line with volume of 12 thousands bottles per hour, it is opened a warehouse of ready production able to dispose 4 million bottles.

**2007** – it's made the first lot of vintage wine of premium range "Cru Lermont".

The enterprise celebrated its half a century jubilee. At the festivity it was established the record of Russia in nomination "The most mass wine degustation - 1100 persons. It was started the export of Fanagoria wines to the USA. The annual volume of bottling surpassed 2 mln. Decalitres (20 million liters) at first time in the history.

**2011** – Fanagoria started a regular import to China.

**2012** – the total square of Fanagoria grapes is enlarged to 2500 HA. It was started the production of brandy and sparkling wine with a classic way. It was harvested a record quantity of the grapes – more than 25 thousand tons.
